

Monday, Aug. 8,

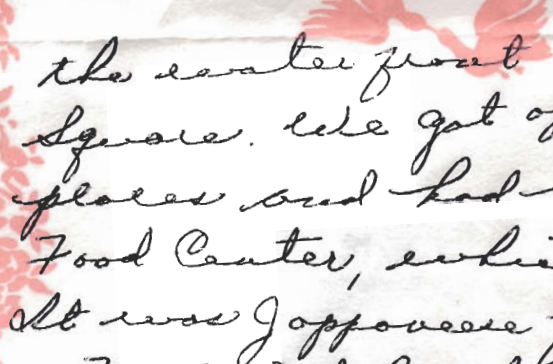

Dear Ueki and Jim,

We had a busy week-end as Joyce and Bob Carlson come from Moses Lake to attend the wedding of Suzie Forrest and they stayed with us. I had expected only the four of us for dinner and eight unexpected ones arrived. The Carlsons had their children come, who are big kids now and Chuck Carlson brought his girl friend and then the Tonkins who live in back of us saw us all out in the back yard so they come over with their two children. We did have a good time however and everyone managed to get a little bit to eat. I finally asked Tonkins if I could cut down their fir tree that I have worried about and they said it was alright with them.

The party at the Bless Banjo last Sunday for beer and popcorn was fun and we brought our group back here and ordered Pizza and played cards. Mary and Mike came along also. Gail took tickets at the door at the Bless Banjo. The fellow Mary had planned to introduce Gail to had just met a girl and become engaged so it was too late.

We plan to go up to the cabin this week-end. Ruthie and Jack will be up there also. Gail said you might get out here this summer which would be real nice. Our weather is quite nice altho it rained all day yesterday for the Seafair Hydro races. I hope you are surviving the heat back there. It must be hard to take with the high humidity.

Last week I met Mary and we took the Fern Run Bus. Think you would enjoy it. It costs ten seats and makes a tour of Seattle. The Science Center,

the winter front used Korean  
Square. We got off at different  
places and had lunch at the  
Food Center, which was delicious.  
It was Japanese food.

My friend Anabel from New York  
is here and she and Marty and Phyllis  
and I are going to begin tomorrow  
to see Dad and Dorothy. We are  
going to bring a picnic lunch.

Dad will be home soon so I  
will write more later.

Love,  
Mona
